OA 1015

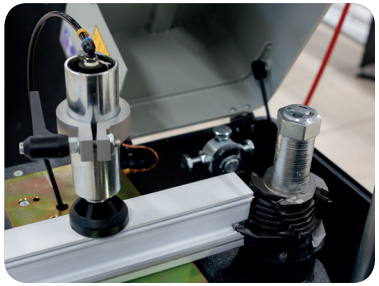

Modular End Milling Machine

Cutter Change System:

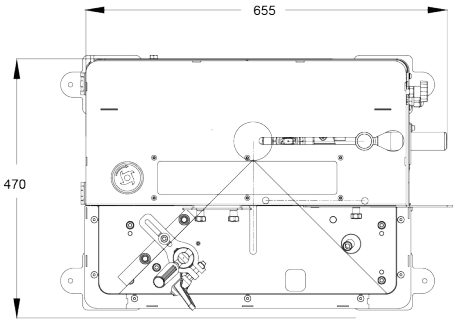

- Practical cutter change system provides ease of operation.

End Milling

- Has lubrication system.

General Features

- End milling operation on Aluminium profiles at 45° and 90°.
- Has lubrication system.
- Easily adjustable angular and eccentric support plates.
- Safe operation with safety covers.
- Cutter storing with cutter shelf.

Optional Equipments

- End Milling Cutters
